

Online choices

Eight comic scenario cards to cut out and talk through. What could you do?

NAME _____ CLASS _____ DATE _____

LEARNING GOAL

Think through tricky online situations and choose actions that are kind and safe.

SUCCESS CRITERIA

- ☐ I can explain how an online choice can affect other people.
- ☐ I can name the safe steps if a stranger contacts me online.
- ☐ I can say who I could ask for help.

1 Cut out and talk

PING!

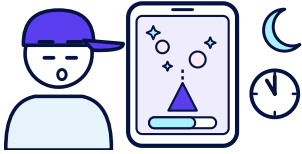

Cut along the dashed lines. Read each card aloud and talk it through. No real names.

1 Group chat. Someone posts an unkind joke about a classmate in a group chat. Others send laughing faces. What could you do? Think it through: How might the classmate feel? What could you do that is kind, and safe for you too?	2 Password. Your best friend wants your game password so they can win levels for you. What could you do? Think it through: Why should a password stay private, even from a good friend? How could you say no kindly?
3 Photo. A friend posts an embarrassing photo of you without asking. Lots of people have seen it. What could you do? Think it through: Who should agree before a photo is posted? What could you ask your friend to do?	4 Viral post. A shocking post says school is closed tomorrow. It has thousands of shares and a link. What could you do? Think it through: How could you check if it is true before you share it? Who would really know?

More online choices

5 Late night. It is 11 pm on a school night. Your team in an online game wants one more round.

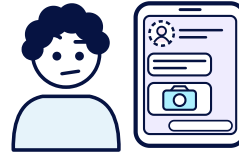

One more round!
Don't leave us!

What could you do?

Think it through: How might you feel tomorrow? What could you say to your team?

6 New contact. Someone you do not know messages you in a game.

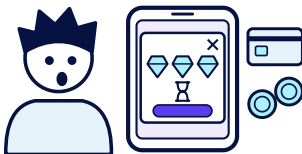

I'm your age. Let's
chat in private.
Send a photo?

What could you do?

- ✓ Do not share personal info or photos.
- ✓ Tell a trusted adult.
- ✓ Never arrange to meet.
- ✓ Block and report.

Think it through: Why might people online pretend?

7 In-game shop. A free game shows offers with a countdown timer. A payment card is saved on the tablet.

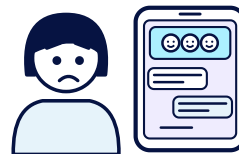

Offer ends soon!
Buy gems now!

What could you do?

Think it through: Why do games use countdown timers? Who should you ask before you buy anything?

8 Left out. Friends make a new group chat to plan a party. One friend was not added and has noticed.

Why wasn't I
added?

What could you do?

Think it through: How would it feel to be left out? What small thing could you do?

2 After the talk

The best idea our group heard

One thing I will do online this week

GO FURTHER

Invent **card 9**. Write its caption and a **think it through** question. Then swap with another group.
